

Buyers and Sellers

Once you are registered as a member, you become buyer and seller at Trademal.com. You can use our sourcing tools to search products and contact suppliers directly, send inquiries to suppliers, and post unlimited Buying Leads and receive quotation.

You may also post products and Selling Leads, making it possible for you to reach buyers on a global level. Through the combination of a product illustration and a description of your product, interested parties will gain a precise impression of what is offered for sale, search for buyers and contact buyers. You will have a personal showroom to post your company profile, products, business contact, etc.
